

Hi Raider Parents!

Welcome to Walton! Please note there are a few differences in clinic and medication policy from middle school. I have tried to make this list brief but with enough information to reduce the number of phone calls you receive from the school and the trips you have to make to the school! ☺

•Prescription medication is NOT to be carried by students at any time. The only exceptions are diabetic, asthma, or epi-pen medications. •If your student has need of any of these medications please see the nurse for more information.

•If your child needs prescription medicine during the school day (a one-time dose OR daily), a parent must bring the medicine to the clinic, in the original pharmacy labeled container.

••Parent volunteers and student aides may NOT accept or deliver any medication to students at school.

Important••Over-the counter medicine (OTC), for example. Ibuprofen, Tylenol, & cough drops may be carried by high school students without an authorization form. •The clinic does not keep a supply of OTC medications. The OTC medicine carried by a student must be in the original container. DO NOT bring OTC medicine in a zip lock bag. This should be a small personal supply of medicine, and may not be shared with other students. All medication must be supplied by a parent.

•Feminine products are available if needed, in the form of pads only, no tampons.

•Please encourage your student to always carry a refillable water bottle and a snack(s) each day to school. •I see many students with illness symptoms that are due to either dehydration, hunger or both. There are 6 minutes between classes, this is enough time for them to eat a quick snack and drink some water before each class.

Don't hesitate to contact me if you have any questions or concerns.

Sandy Evans, RN, BSN

School Nurse

Walton High School

Clinic Hours 8:30-3:30

770-578-3225 x242
